Information

The remote control LXV 2500-HRS is designed for heating indoor and outdoor areas. Each part of its carefully manufactured for high performance. Carbon resistance generating medium wave infrared heat is one of them [with 98% Productivity]. The thermostat, the heating power and the auto-off timer can be set with the remote control. Overheat protection is available. Safe and robust mounting on the wall is provided with a five-stage suspension bracket. Thanks to its durable and aesthetic design [with aluminum body], it can be used in many places such as Balcony, Garden, Restaurant, Hotel, Bathroom, Garage, Office, Factory, Warehouse.
